

Diversity Underlying Unity:
The state of India's states: 2018

Federalism: India's Power Unleashed

IMA's new research report

One country:
extraordinary diversity

29 states

7 union territories

Each state, unique in its economy and demography, politics and policy, combine with the other states to determine the growth trajectory of the country as a whole.

The report dissects in minute detail past trends and outlines the future potential of each state on key parameters to identify suitable investment destinations, as well as India's biggest consumption markets:

Quantitative analysis and qualitative assessment incorporating insights from state governments and industry leaders

- Structure of economy
- Infrastructure readiness
- Drivers: *demography, urbanisation etc*
- Employment scenario
- Consumption trends
- Public & private investments
- Political stability
- Governance & reforms
- Future growth plans
